Want to sell more with smart themes? Here's your playbook.

The Big Idea: Display products together that make sense to your customers. Think about what they need, when they need it.

Here's How To Win:

1. Pick a clear theme
2. Put related items together (use the Gravity banner colours as a guide)
3. Place them where people will see them
4. Make it easy to grab and go

Let's Look At Two Money-Making Examples:

"Game Day Kit" (Perfect for a Sports Section)

- Dove Deodorant - Game ready
- Sport Gel - Hair stays put
- Axe Body Spray - Fresh after play

"On-The-Go Kit" (Great for Any Store)

- Lint Roller - Look sharp anywhere
- Crest Spray - Fresh on demand
- Dove Dry Shampoo - Reset your hair

Pro Tips: 

- Mix everyday items with surprises
- Change themes with the seasons
- Put kits where people pause
- Make it easy to see and grab

Gravity Pack Floor Shipper Displays

Want to sell more without taking up shelf space?

Floor Shippers are your secret weapon. Here's why they work so well:

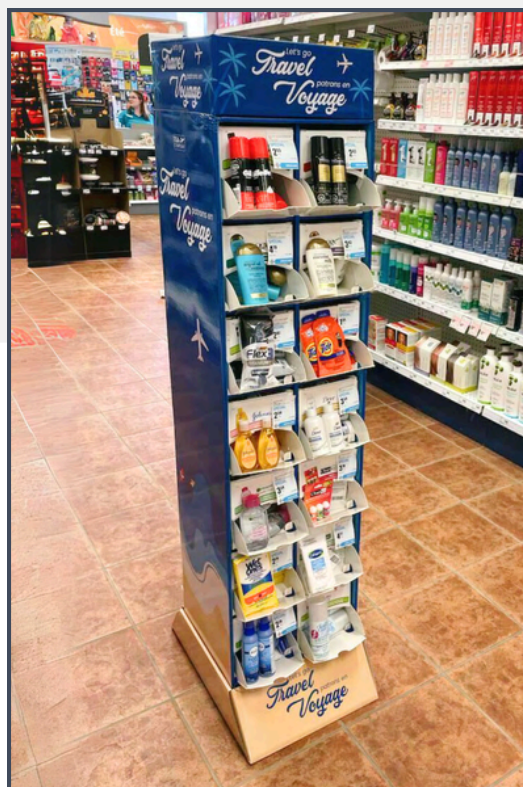

- They grab attention in high traffic areas
- They sit right where customers are making purchase decisions
- They make your products easy to see and grab

Think of Floor Shippers like tiny stores within your store. They turn empty floor space into money-making hotspots.

Give customers exactly what they want, when they want it.

Our Floor Shippers make it simple:

- We group similar items together
- Everything matches a clear theme
- Customers can grab and go fast

Here's what makes them work:

- Travel items? All in one spot
- Beauty stuff? Easy to find
- Health products? Right there

Think of it like a mini store that changes with the seasons. Holiday coming up? We've got displays for that.

The colors and designs work together to catch eyes and open wallets. It's like having a silent salesperson working 24/7.

KYLE S.

Canadian Tire #210 - Ottawa

We were trying to provide great add-on items for our customers. Great variety, and the service was second to none, Everything was so seamless. People now can find travel safe products every day, and this is great being so close to the airport. Placing an order requires little time and/or effort. If you're on the fence, start with a smaller selection. Highly recommend.

The program is great for pick-up items for my cash lane, and great for camping. I was able to fill a 4 foot section and it's been great having the rep reply to my questions. Great products/program for the price.

BRYAN M.

Canadian Tire # 691

I needed more assortment for the camping/travel section in my store. As soon as I found out about it I purchased it right away and now have been doing very well with it The merchandising options, like the tower and displayer, are fantastic, and the assortment is spot on. Since implementing it, my sales have increased with minimal investment and no real shrink concerns. I wouldn't hesitate to tell someone to try it! I have had no issues whatsoever with the program and I think anyone who gives it a try in any market will be pleasantly surprised with the results.
